The new R1

Introducing the completely new-generation YZF-R1. Nope, that's not a typo - our legend has once again been poked, prodded, ripped and tacked to deliver an even stronger sense of that famously ground-breaking R1 performance. From an all-new aluminum Deltona II frame, stiffer 43mm fork and revised rear shock to state-of-

the-art EFI and gorgeously redesigned bodywork, the R1 is poised yet again to smash the supermot status quo, rewriting the world that it is still The One. Simply put, there's never been - and never will be - another sport bike like it. For more info, log on to www.yamaha-motor.com.
