

Basi militari USA al di fuori degli Stati Uniti

La fonte principale di questo elenco – tratto da Wilhelm Langthaler e Werner Pirke, *Ami Go Home. Zwölf gute Gründe für einen*

Antiamericanismus, [di cui offriamo una recensione in italiano su questo sito](#) – è il "Base Structure Report 2002" del Dipartimento della Difesa degli Stati Uniti. Questo fornisce un totale di 725 installazioni militari al di fuori del territorio statunitense, controllate direttamente dall'esercito USA. Purtroppo, in alcuni paesi, il rapporto fornisce solo il numero delle installazioni senza la località. Oltre a quelle elencate qui, le forze USA adoperano innumerevoli installazioni militari in altri paesi, il cui status viene regolamentato in vario o in nessun modo. In molti casi, la presenza di truppe USA viene tenuta segreta.

Il seguente elenco comprende anche installazioni controllate dagli USA che non sono elencate nel „Base Structure Report" del Pentagono.

Basi di appoggio gestite dal paese ospitante – come la base aerea Manta nell'Ecuador – non sono comprese. I dati ovviamente non hanno alcuna pretesa di essere completi.

Qui potete trovare un elenco quasi completo delle [basi militari americane](#) in Italia.

Un elenco dettagliato delle basi USA in Europa - e in particolare in Italia - si trova sul [sito di Aurora](#).

Si veda anche l'intervista con Falco Accame, "[Basi NATO: nuovi piani di colonizzazione](#)".
